```python
import yfinance as yf
import pandas as pd

# Download GameStop stock data
gme_data = yf.download('GME', start='2023-01-01', end='2024-01-01')

# Reset the index
gme_data.reset_index(inplace=True)

# Save the data to a CSV file
gme_data.to_csv('gme_stock_data.csv', index=False)

# Display the first five rows
print(gme_data.head())
```

```
